CA/C Data Visualization for Publication

VIRTUAL STUDENT FOREIGN SERVICE

V S F S

Project Title	CA/C Data Visualization for Publication
Project Summary	The Bureau of Consular Affairs, Office of the Comptroller (CA/C) works with various types of financial data and shares pertinent reports to stakeholders. We are seeking someone who understands data analysis as well as the importance of clear, compelling visual communication of key findings.
Country	United States
Agency	Department of State
DoS Office	CA/C
Post	N/A
Section	N/A
Number of Interns	2

Project Description

The VSFS intern will work with multiple teams and different data sets to create data visualization for various uses such as briefings, reports, training materials, and stand-alone pieces. The goal is to transform numbers into compelling visuals that complement key messages. The office currently creates pie charts, bar-graphs, line charts, etc.

Desired Skills Interests

Additional Information

We are looking for a flexible candidate.

Example: One program in the office is Consular Overseas Data Collection (CODaC), a component of the Office of the Comptroller's Cost of Service Model (CoSM) which is used to support consular fee setting. CODaC surveys are administered three times per fiscal year to approximately 70 posts annually. The CODaC

specifically tracks how consular staff spends their time by administering time tracking surveys to all consular staff at a given post over the span of two representative days.
